A. Background

We are one of the world's largest manufacturers and distributors of confectionery and chewing gum. Among our well-loved imaginative products and brands include Mentos, Chupa Chups, and Alpenliebe, which are enjoyed in over 150 countries.

Perfetti Van Melle was established in March 2001 through the merger of Perfetti SpA and Van Melle N.V., but the two companies had been cooperating in a number of countries since 1979. Later in 1991, common interests led Perfetti to acquire 37% share in Van Melle. This was only the first step in a partnership that was to prove profitable from the outset, growing even stronger until ultimately, in January 2001, Perfetti bought Van Melle’s entire shareholding. In July 2006, Perfetti Van Melle made another important acquisition, acquiring 100% of Chupa Chups, a family owned Spanish Group famous all over the world for its well-loved Chupa Chups and Smint brands.
